

MURRAY ENGINEERING AUTOMATION

Murray Engineering is proud to offer a broad range of automation, guidance and control system solutions for your mobile equipment needs.

As an example, our underground loader automation system offers the following benefits:

- Able to be fitted to most machine makes and models. Currently operating on CAT 1700, 2900 and Sandvik LH621,514,204
- All in one system which enables you to operate via line of sight, teleremote, pilot or full auto tram mode
- Teleremote systems can be easily upgradeable to Auto Guidance
- Capable of operating multiple loaders from one console with one operator
- Minimal machine components for ease of installation and diagnosis
- System can be removed from one loader and installed onto another in less than one shift

Please contact our Control Systems department today on 1800 MURRAY or email your interest to sales@murrayengineering.com.au
